Justin™ RECHARGEABLE POWER BANKS & POWER CASES

We live in a world filled with portable technology. We use our smartphones to communicate and our tablets and MP3 players to entertain us. Although there are countless brands and devices in the market, they all have one thing in common… they will eventually run out of power. When you are on-the-go and need to recharge your dying phone, a fading tablet or portable device, our Justin Portable Power Products will be there for you!

Our extensive collection of portable power banks, tablet/smartphone power cases, automotive charging accessories and more will allow you to *Recharge Anytime, Anywhere!*

Recharge Anytime, Anywhere! Here's What Our Power Can Do For You!

	Power (mAh) 2,000	4,000	6,000	8,000	10,000	12,000

Bluetooth®

Classic Collection

Digitize Your Memories!™

Whether it is your classic collection of vinyl records, cassettes, “mixed tapes”, 35mm film negatives, slides or photographs, they all have one thing in common; they are analogue media that will degrade and be lost forever. Our vinyl records, cassettes, negatives and photographs are a part of who we are. To lose such cherished memories would be heartbreaking.

Innovative Technology has designed, developed and manufactured a collection of products that take analogue media (vinyl records, cassettes, 35mm negatives, etc.) and convert it into digital format (CD, MP3, JPEG, etc.)! We named this collection “Digitize Your Memories!”

Why Choose **“Digitize Your Memories?”**:

- Innovative Technology is the only supplier in North America to offer ALL of the “Digitize Your Memories” converters under one brand name.
- Having the complete collection under one brand name allows us to develop a cohesive packaging strategy that makes for a uniform/branded statement on your selling floor.
- Our superior product quality and prices have led Innovative Technology to be the market leader in this category.
