

## Quick Start Guide

1. Plug Bright Tunes into any wall outlet or existing string lights.  
*(All the string lights will illuminate.)*
2. Bright Tunes will automatically begin searching in Bluetooth mode. The LED on the control box will flash Blue.
3. Activate Bluetooth on your favorite device.  
(smartphone, tablet, laptop, etc.)
4. Search for **“Bright Tunes”** on your device and pair.  
*(If you are asked for a password, enter 0000.)*
5. Once pairing is complete, you will hear an audible beep and the Blue LED will remain lit.
6. Press play on your device to start streaming music wirelessly to Bright Tunes. Enjoy!

*Note: Enjoy your Bright Tunes indoors or outdoors and use them with any of your existing string lights (LED or Incandescent). See manual for more information on wattage cautions, Aux-In operation, and connecting multiple strands.*
