

12V Auto Vacuum Model # ITST-34

Thanks for choosing the Innovative Technology 12V Auto Vacuum with Flashlight. This manual will provide you with directions for the effective operation of the 12V Auto Vacuum with Flashlight. Please review the manual carefully before operating this product and store in a safe place for future reference.

Location of Controls:

1. Power ON/OFF Switch
2. Dust Cover Opening/
Closing Point
3. Built-In Light

Use and Operation:

The 12V Auto Vacuum works when plugged into a standard 12V cigarette lighter outlet of any automobile. To use the Auto Vacuum, plug it into a 12V cigarette lighter outlet and turn it on by pushing the ON/OFF switch forward towards the ON position. The built-in light comes on when unit is turned on.

Use the vacuum to clean up your vehicle. To turn the light on, just push the ON-OFF button towards the front. You can use the crevice tool to pick up things in the gap between the seat and seat back. Turn the unit off and unplug it after use.

To empty the trash receptacle, hold the front end of the unit and gently turn counter-clockwise to unscrew it from the unit. Make sure to do this over an open waste basket so that trash will fall directly into the waste basket. If you need to clean the unit, you can use a brush to clean the unit. If the filter gets clogged gently clean it with a soft cloth, making sure not to puncture the filter.

Put the trash receptacle back onto the unit by turning it clockwise to secure it with the body.

Caution:

Never immerse the unit in water or any other liquid or fluid as this will damage the unit. Do not wash the unit or clean under a running tap.

Do not use the unit to pick up metal and heavy objects as it is not designed to handle these.

Extreme care should be used when handling the unit, and when using any of the accessories.

Keep the unit away from children.

PROPOSITION 65 WARNING:

This product contains chemicals known to the State of California to cause cancer and/or birth defects or other reproductive harm. Wash hands after handling.
